

Child Development Center

A PLACE WITH GREAT EXPECTATIONS FOR CHILDREN

May 8, 2013

To whom it may concern:

Southside Child Development Center (SCDC) is honored to write a letter of support for the Scottish Rite Childhood Language Center. It is because of programs such as this one that those of us who serve persons in need with little to no disposable income can help identify and provide early care for young learners who may have a speech language and/or hearing problems. We all know that early detection and treatment for these problems mean that our children are able to enter kindergarten more ready to learn and communicate their needs thus impacting the community more positively.

Because of services offered by The Scottish Rite Childhood Language Center SCDC is able to continue meeting our mission and motto of being "A Place with Great Expectations" for children and families that we serve.

A handwritten signature in cursive script that reads "Shelia A. Pleasants".

Shelia A. Pleasants
Executive Director
